KERNOW HANG GLIDING

'THUGS' IN TEAM TROPHY TRIUMPH!

ISSUE No.12 DECEMBER 1992.

and the editor writes.....

After five weeks in the icy wastes of Saskatoon, Saskatchewan 'on holiday' as everyone likes to say- I've given up explaining that I was there to work - I'm now back down to earth slaving over a hot keyboard. My thanks to **Jon Knight** for producing last month's newsletter and so keeping everyone in touch.

Congratulations to **Pete Coad** on another Kernow XC League triumph and to the **Thermal Thugs** for their team win. It was good to see, after a year's competition, just how close the final team mileage totals were which shows how well the seeding system worked. I see that this year the interest in the event has grown and the teams have been increased - should be a good contest.

I understand that during my 'holiday' the flying hasn't been anything to get excited about but nevertheless some miles have already been flown in the new XC Winter League - and that all the teams are represented.

I'm afraid that the content of this month's newsletter is basically a compilation of statistics covering the year's flying efforts plus details of the 1993 team structures. I will try to gather rather more for next months outpouring, so bear with me.

safe flyingRob.

XC League Teams for 1993

At the December meeting Bill Scott, Graham Phipps & Pete Coad drew up the XC League teams for 1993.

Graham offered to chair the complaints committee and in true Council fashion declared that complaints would only be reviewed on the grounds of safety. Pete said that if anybody complained that being in his team was a hazard to their health he would beat the living daylights out of them.

Congratulations to Pete Coad on winning the 92 XC League. Pete's best flight was from Notter Bridge to Trewithian (34 Miles), which interestingly is a record from an inland site in Cornwall. The flights which gave Pete an unassailable lead however, was the two Out & Return flights he made from Freathy to Looe in the Winter XC League.

Congratulations also to the "Thermal Thugs" who took the team prize. The Phipps late signing of Joe batt proving a very shrewd move.
